Thank you all for attending!

A huge thank you to all the speakers & musicians for taking time out of their schedules to travel far and wide to convene in historic Valley Forge to spread truth. George Washington would be so proud. He camped here, as we now have camped here, a growing truth revolution of sorts.

A very grateful thank you to my wingmen, Jon Gold and Mike Knarr, and to the many others who have offered and given their help so graciously, Jack, Mark, Frank, Greg, Kristen, Scott, Jeff, Russ, PG, Prof. Ouch... And thank you, Chris, for your ongoing support...

This conference is dedicated to the 3,000 people that died on 9/11/01, the nearly 5,000 U.S. troops in Iraq alone who have since died, including, on April 4th, 2004, Casey Austin Sheehan; the 9/11 first responders who are still giving their lives, and the nearly 1.4 million dead Iraqi civilians. It was recently announced that 1,000 U.S. troops have now been killed in Afghanistan. Currently, Afghanistan troop deaths reportedly number nearly 9,000, with an additional conservative U.S./U.N. estimate of 10,000 Afghanistan civilian deaths. However, most international estimates, from impartial sources, are well over 300,000.

9/11 was the event that not only brought us into war in the Middle East, but also changed our way of life from invasions of privacy, domestic surveillance & naked body scanners, to the loss of Habeas corpus and recent revisions in the Miranda rights, all directly related to the "war on terror". If what we've been told about 9/11 is not true and there has been a cover up as evidenced by these two-day presentations, shouldn't we demand answers?

WE must be the change we seek...
